

## How to download your connections from LinkedIn

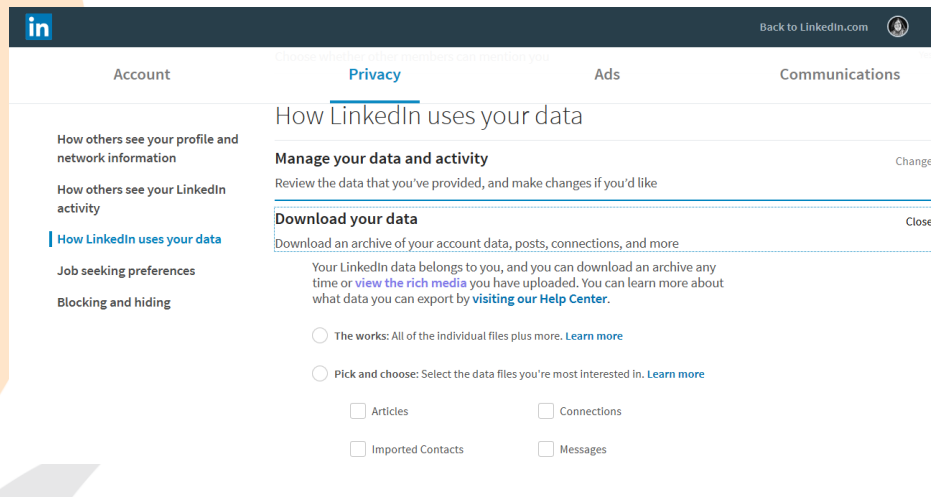

Click on the menu under your photograph

The menu will open in the account tab, click on the privacy tab (across the header) and you should see this screen

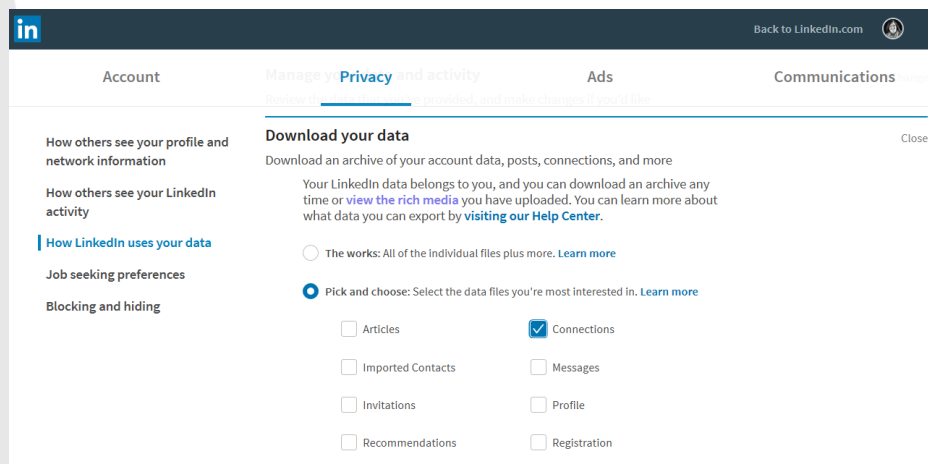

Scroll down to the “how linkedIn uses your data” tab. From here click on the “download your data”

# How to download your connections from LinkedIn

You can choose to download everything, or just your connections or messages.....

Click request archive and you will get a link emailed to you in about 10 mins. For your connections this will be in a .csv file which you can then open with excel
